

THE CHRONICLE

VOL. XIII No. 14.

CROSSFIELD, ALBERTA, THURSDAY, MAY 6th, 1920.

PRICE \$1.50 A YEAR.

WM. LAUT

Get Full Earning Power from Farm Machinery What Means Most to You is What We Try Most to Give

There is only one way to buy an implement economically.

Buy it on the basis of its earning power.

Buy it for its ability to do good work for you right from the start and year after year.

It is our aim to sell full earning power every time we sell a farm implement.

That is why we buy from a firm that takes every care to maintain its reputation for making only good implements,

—why we show you the implements before you buy so that you can be sure it fits your requirements,

—why we set the implement up exactly right before we turn it over to you,

—why we are always ready to help you understand every adjustment before you start operating the implement,

—why we maintain a prompt repair service so that when parts become worn, you can renew them without loss of time,

All of those things go to insure full earning power. Yet their great importance is sometimes overlooked. You will appreciate the care we take in observing them.

Come in and see us whenever you need a farm implement.

William Laut,
Groceries, Hardware, Implements, Harness.

A Good Investment

THE money you save earns interest when deposited in our Savings Department, and both principal and interest are safe and can be obtained whenever required. Open an account to-day.

For Canadians to Consider

The national debt of Canada has now reached a figure of approximately \$3,000,000,000. This is the gross debt. The net debt, that is after deduction of assets has been made, is now around \$2,000,000,000. It must be borne in mind, however, that many items included in the statement of assets are not such in the recognized commercial meaning of the term; in fact, no considerable portion of what are termed assets are, for the time being at least, more in the nature of liabilities. For example, Canada has some hundreds of millions of dollars invested in the National Railways, and the latter are regarded as an asset, but as a matter of fact and common knowledge these railways are not earning operating expenses, not to mention interest on the capital invested in them. Consequently, in casting up the national balance sheet, the people must be taxed to meet both operating deficits and the whole interest outlay on the money invested in, and the stocks, bonds and debentures outstanding against these railways.

For the current year it is estimated that no less a sum than \$350,000,000 will be required to meet ordinary expenditures, and a further substantial addition must be made to the national debt to cover certain capital expenditures to which the country is already committed and which cannot be avoided.

Of this \$350,000,000, about \$125,000,000 will be eaten up as interest on the public debt. In the neighborhood of \$50,000,000 will be required to cover operating deficits and interest payments on account of the national railways. Thus these two items alone will dispose of one-half of the entire revenue.

Out of the remaining, \$175,000,000 some tens of millions must be paid out in pensions, vocational training for soldiers, hospital accommodation and treatment for soldiers, and in various forms of soldiers' civil re-establishment work. Some millions are to be spent in grants on a population basis to the provinces for highway construction; a few millions will be used to meet the deficit in the operation of the post office department; and all the expenses of government, including the Civil Service, administration of justice, militia and police establishment, subsidies to the provinces, and all the multiplicity of services devolving upon the Federal Government must be met.

The people of Canada, who are the taxpayers, and who must bear the burden of providing the money to meet all these obligations, must seriously consider the national situation, and especially so at times when they may be inclined to urge additional expenditures of one kind or another, for very laudable and even necessary purposes. Canada must, however, curtail

its expenditures to a point where they can be covered by the revenue. This country cannot continue living on borrowed money and by going still deeper into debt. There must be national as well as individual retrenchment. Instead of getting deeper into debt, the time approaches when we must agree to still heavier taxation in order to begin the process of liquidating the national debt, as it is now being done in Great Britain.

There is nothing in the national situation, however, to despair over or become pessimistic about. Canada has the resources and the energy and the ability to meet all its obligations, proceed with its development, and add to the wealth, prosperity and happiness of its people. But it cannot be accomplished by continual criticism, by seeking to tear down existing institutions in order to apply a lot of untried theories and untested methods. The world, Canada included, has had enough of destruction within the past five or six years. What is now necessary is constructive enterprise, and that can only be brought about by work, and by people generally realizing that it is impossible to get something for nothing; that, on the contrary, the present tendency of most people to be slackers at their job, to insist upon double the wages formerly received in return for about half as much labor and effort on their part, must be abandoned.

Hard work is in sight for most of us. If we do not make up our minds to undertake such work now, buckle down to our jobs, and produce to the maximum of our powers in whatever occupation we may be engaged, at the same time cutting out luxuries, and saving the last possible dollar,—well, we are but slightly delaying the time when dire force of necessity will compel us to do these things, and the longer the delay before doing what we ought to do, the greater the loss and the more severe the penalty will be.

If we don't eliminate luxuries and save now; if we still think we can produce less and consume more; if we continue to delude ourselves that we can indefinitely continue to receive double pay for half as much work, nothing can prevent hard times. If such times come as a result of our folly, we will not only do without luxuries, but may find ourselves hard pressed to obtain necessities.

There is only one solution, in Canada as elsewhere. It is not theorizing; it is work—hard, practical, productive work.

Nutmegs are kernels of the fruit of a tree cultivated in Sumatra, Java and the West Indies. The shape and size of this fruit resembles a peach, and when ripe, it easily splits in two parts, showing the kernel (or nutmeg) and mace, which surrounds it.

It is just fifty years since the method of grinding wood as raw material for paper was introduced in the United States.

For Good Films

Manitoba Takes Lead in Encouraging British and Canadian Sentiment

The Good Films Committee desire to go on record as being heartily in accord with all movements tending to raise the standard of Motion Picture entertainments in Manitoba with a view to encouraging British and Canadian sentiment and clean ideals of family life.

The committee urge a closer co-operation between the board of censors and the citizen in order that the public may have a fuller understanding of the wide-spread influence of this universal form of recreation, which is undoubtedly doing much to mould the sentiment of the rising generation.

It is strongly advocated that constantly recurring ideas and suggestions in pictures dealing with seduction and infidelity; shady methods of divorce; vicious underworld characters and methods of life; sex immorality; and the depiction of assault upon women be suppressed.

The lead taken by Manitoba in this connection might well be followed by the other prairie provinces. The educational value of the moving picture is second only to our newspapers, and it is therefore of paramount importance that pictures depicting only the highest and best ideals should be shown. Let everyone interest themselves in helping to raise the standard of motion picture productions.

He Has Tried Them And Got Results

WHY A. J. MACLEOD PRAISES DODD'S KIDNEY PILLS

Nova Scotia Man Gives the Reason Why He Always Suffers From Kidney Trouble to Use Dodd's Kidney Pills.

River Dennis, N.S., April 26th. (Special).—"Dodd's kidney pills helped me wonderfully. My back is better and I have taken any other medicine since starting to take them, they must have done me a lot of good."

In these words, Alexander J. MacLeod, a well-known resident here gives the reason why he praises Dodd's Kidney Pills and why he says, "I would advise anybody who has kidney trouble to give Dodd's Kidney Pills a trial."

The reason Dodd's Kidney Pills are popular all over Canada is that people have tried them and found them good. Dodd's Kidney Pills have been in use in Canada for more than thirty years. They have been used by thousands of people suffering from various forms of kidney trouble, such as rheumatism, dropsy, sore back, weakness, diabetes and Bright's disease.

Ask any one of these thousands to give you his opinion of Dodd's Kidney Pills. It is on the relief afforded sufferers from kidney trouble that Dodd's Kidney Pills have built their reputation as the sovereign remedy for sick kidneys.

Demand for Men Better

34,440 Workers Were Placed During Month of March

The employment situation in Canada is improving, according to figures published in the Labor Gazette for April. The employment service connected with the department of labor placed altogether 34,400 people in employment during the month of March and received 41,700 applications for employment. The department was notified of 36,200 vacancies. All these figures represent an increase over the previous month and the previous year. There was a steady increase in employment in all provinces except the prairies, where a decline was reported.

There was less loss of time due to strikes in March, 22 strikes were reported, involving 3,789 people and representing a loss of 43,169 working days. Sixteen strikes remained unsettled at the end of the month. Reports were received from five conciliation boards and applications were received for five more. Two boards were appointed in addition to these on application received previously.

The triple alliance of Germany, Austria and Italy was formed March 13, 1887.

Insures long life

Imperial Mica Axle Grease and Imperial Eureka Harness Oil insure long life for wagons and harnesses. Put up in convenient sizes and sold by dealers everywhere.

Imperial Mica Axle Grease
—not only lubricates, but smooths the surface of the axle and hub with a coating of powdered mica, thus reducing friction and lessening the strain on horses and harnesses.

Imperial Eureka Harness Oil
keeps harness straps and tips pliable and strong, prevents cracking and breaking of stitches. It preserves harness against the action of sweat, moisture and dirt, also wards off insects. Imperial Eureka Harness Oil imparts a rich, black, lasting finish.

IMPERIAL "MADE IN CANADA" PRODUCTS

IMPERIAL OIL LIMITED
General Agents: Light, Lubrication, and all other oils.

National Research Institute

Institution Would Meet The Requirements for Developing the Natural Resources

Plans for the establishment of a national research institute for Canada, were before the commons committee on scientific research recently. It was recommended that a site of at least 5 acres should be secured near Ottawa and a building of laboratory type four stories in height, to cost \$500,000, be erected.

The scientific instruments required would cost approximately \$100,000 and salaries would require about \$100,000 per annum.

This institute would be similar to the bureau of standards at Washington and the Mellon institute at Pittsburgh. It was felt that such an institution would meet the most pressing requirements for developing natural resources and make provision for assistance to Canadian industries.

A bill covering the establishment of such an institution is to be drafted by a sub-committee composed of Dr. S. B. Steele, Dr. Thompson (Yukon), and Dr. R. J. Manion (Fort William), who will report back to the committee.

Minard's Liniment for sale everywhere.

More Drastic Methods

If the Sinn Feiners were carrying on operations under the stars and stripes, instead of the Union Jack, the whole Sinn Fein movement, like ancient Gaul, could be divided into three parts—one part in the graveyard; one part in the penitentiary; and the other part in process of being shot into the cells or the cemetery—Toronto Telegram.

The Annual Election of Officers
took place at the Ladies Aid Meet-
ing at Union Church, on Wednes-
day afternoon. The following ap-
pointments were made: Hon. Pres.
Mrs. R. K. Swenerton, Pres.—Mrs.
W. McRory, Vice-Pres. Mrs. R.
Whitfield, Sec. Mrs. M. Thomas,
Treas. Mrs. D. A. Jeffery.

Postponed

The Congregational Social which
was to have been held Friday night
of this week at the Union Church
has been postponed to Monday, May
17th. It is felt that with improved
weather and roads there will be a
better opportunity for the people
from the country to attend. Plans
will also be more fully completed
for a first-class program.

Destruction of Locusts

Of all the means employed in des-
troying locusts none other can com-
pare favorably with the poisoned
baits, the utility of which has been
proved beyond question. Their suc-
cess, however, depends greatly upon
careful application while failure can
nearly always be traced to some fault
in making or applying the baits.
The Entomological Branch has just
issued Circular No. 13 "Locust Control
in the Prairie Provinces" by
Norman Criddle. This will be sent
free upon application to the Publi-
cations Branch of the Department
of Agriculture, Ottawa. It gives full
information regarding preparation
and application of baits. It further
states that the locusts, which last
year did great damage in Western
Canada, are the native kinds known
respectively as the Lesser Migratory
and the Pellicled Locusts. These lo-
custs pass through various stages
and reach maturity about forty-five
days after emerging from the ground
in early May. During this time they
continuously feed on growing plants.
On attaining the winged state the
habits of the locusts undergo a
change, they acquire flying and egg
laying habits, still remaining voraci-
ous feeders. By the end of June
flights are a general occurrence and
extensive migrations may be observ-
ed on warm sunny days.

March 30th 1920.
The Secretary-Treasurer,
School District.

Dear Sir,
The Council of the Muni-
cipal District of Rosebud offer three cash
prizes viz: First \$5.00, Second \$3.00,
Third \$2.00 to the pupils of each School
District within the Municipality for the
destruction of Gophers under the fol-
lowing conditions,

- (1) The total catch for any school shall
not be less than four hundred.
- (2) The tails only be required to count.
- (3) All counting to be done and the
tails immediately destroyed in the pres-
ence of the teacher.
- (4) Competition to close May 17th,
next at noon.
- (5) The teacher immediately after above
date to send to W. McRory, Sec. Treas.
Crossfield, a certified return of the
names of those returning the First, Se-
cond and Third highest numbers, also
the grand total of all tails returned by
the pupils of the school.

Further a Grand Prize will be paid to
the pupil within the Municipality who
returns the greatest number, of TEN
DOLLARS.

Please use your best efforts to make this
a success.

By Order of the Council,
W. McRory, Sec. Treas.

GENERAL SUPPLIES LIMITED
CALGARY, ALBERTA

Allies to Execute Turkish Treaty By Military Force

San Remo.—The supreme council of the allies is fully prepared to execute the Turkish treaty by military force if necessary.

The council has accepted a plan drawn up for the employment of the allied armies by Marshal Foch, Field Marshal Sir Henry Wilson, British chief of staff, and General Badoglio, Italian chief of staff, who were present.

Two hundred thousand allied troops now are within the borders of the Turkish Empire, strategically disposed and these forces can be increased, if Turkish resistance is developed to any essential number. Greece will probably supply the largest number of troops.

Supplementary naval plans were also announced by the council by which Baron Beatty, commander of the British Grand Fleet, and Admiral Levassour, assistant to the chief of the general staff of the French navy, explained the plans in person.

The treaty does not include the final arrangements for mandatory states. They will simply be cut up from Turkey and disposed of by the supreme council in the future.

The council has determined to leave Kurdistan part of Turkish territory for a period of two years and then decide whether to leave it with Turkey or make it a separate province under a mandate.

The council discussed the composition of military, naval and aerial commissions in Turkey. It gave to the military and naval experts the instructions necessary for preparation of data for compilation by the editorial committee on articles relative to the Turkish treaty.

Miners Riot at Butte

Fourteen I.W.W.'s and One Policeman Are Wounded

Butte, Mont.—Fourteen men, believed to be Industrial Workers of the World strike pickets, and one policeman, are in local hospitals suffering from gunshot wounds sustained in a battle on Anaconda road, near the Nevadewest mine. Police officers believe two of the alleged Industrial Workers will not recover.

Police are searching for three other men said to have been wounded seriously. Striking miners are massed in Finlander hall and the street in front of the building. Feeling runs high. Police reserves have been called out.

For the Former Crown Prince Amsterdam.—Negotiations with the Reformed Church at Wieringen for purchase of a local presbytery "as a permanent residence for the former Crown Prince of Germany" have been begun by the Dutch government, according to the Wieringen, correspondent of the Telegraaf.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is like 16 Karat on gold. It positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over thirteen years and now made in Canada.

Always buy an unbroken package.

There is only one Aspirin—"Bayer"—You must say "Bayer".

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocristalline Aspirin Tablets. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

Bridges Damaged

Owing to Floods

Coal Stores in Calgary Are Running Pretty Low

Calgary.—From information secured from some of the coal operators in the Drumheller valley served by the Canadian Northern Railway, it will be a month before the bridges can be repaired sufficiently for the movement of traffic. It is stated that there are sixty-five bridges in a distance of twenty miles, and that fifteen of them are in a damaged condition owing to the floods. In some cases the bridges are submerged to a depth of more than four feet of water. Coal stores in Calgary are running pretty low, as the bulk of the coal used here comes from Drumheller. The principal supplies are now coming from the Edmonton district.

Indemnities for Canada

Canada's Claim Against Germany Is New Record

Ottawa.—The amount of Canada's indemnity from Germany is now being computed for presentation to the tribunal created under the peace treaty, for considering such things.

Hon. N. W. Rowell, in answering a series of questions by Thomas Hay in the house, stated that the treaty of peace limits and defines the classes of claims which may be presented by the allied and associated powers against Germany. In so far as Canada has expended money or incurred obligations covered by the treaty, she has a claim.

The government is taking the necessary steps to see that the claim is properly presented. He stated that it is not true that Australia and other British colonies have all received additional territory by way of indemnity. Australia, New Zealand and South Africa will be named as mandatories under the League of Nations in respect to certain territories which Germany has been requested to surrender.

Letter on Abandoned Ship

Message Found on Board Bids 'Good-bye to Everyone For Evermore'

Prince Rupert.—The boat, McDuff, which ran ashore at Alford Bay with no one on board on her way here, being sailed by an Indian. A letter was found addressed to Mrs. Anne Brompton, 126 Burgess street, Grimsby, England, saying: "Engine broken, rudder smashed, drifting to Hecate Straits, storm. Bidding good-bye to everyone for evermore."

Exhibition Munitions Are Guaranteed

Question of Compensation for Man Killed At Perry Sound Is Under Consideration

Ottawa.—The Government has a guarantee that all active munitions returned from overseas are to be properly examined and guaranteed to be harmless before being used for exhibition purposes. This information was given to James Arthur, of Perry Sound, in the house of commons the other day.

Mr. Arthur asked whether a claim had been made for compensation for the death of Mr. Alves, who was killed at Perry Sound fall fair by the explosion of a trench mortar supposed to be harmless. He was told that such a claim had been made and that the question of making provision for the family of Mr. Alves was under consideration.

Canadian Missionary Killed

Dr. Menzies of Toronto, Slain While Defending Women in China

Vancouver.—A serious situation has been created in Honan, China, as a result of the murder by bandits of Dr. James Menzies, M.D., C.M., and Citao Tih, the military governor, has been severely censured by the Peking authorities for his inability to protect the foreigners' lives and property. This information has just been received by the World.

Dr. Menzies came from Toronto, where his wife is now residing, and for more than 20 years has been in China. He expired shortly after being wounded, when defending some women missionaries against robbers.

Germans Would Increase Army

Want to be Allowed to Retain All Officers and Staff

Paris.—Germany has asked the inter-allied conference at San Remo to increase from 100,000 to 200,000 men the standing army provided for Germany by the terms of the Treaty of Versailles.

A request was contained in a note handed to the French foreign office last evening with the demand that it be sent to the supreme council at San Remo.

The note set forth that an increased force was necessary for the maintenance of order in the interior and that, fundamentally, the army would not accept an order for its dissolution.

The note further requests that Germany be allowed to retain the entire general staff and corps of officers, which means the entire framework of the active army.

Two other notes were handed to the foreign office at the same time. One dealt with the dissolution of the civil courts, which has already been made public, and the note contained a request that the reichswahl force in the neutral zone should be fixed according to the number of men instead of the number of units, and that Germany be allowed to have 11 batteries of artillery instead of two in the neutral zone.

Universal Shortage

Dr. Robertson Tells Committee of Abnormal World Demand

Ottawa.—In an address before the parliamentary committee on agriculture and colonization, Dr. J. W. Robertson, said it would take at least two big crops to catch up to anything like normal supplies of breadstuffs; ten years to oblige the pre-war status on milk products, and four or five years for beef products.

Dr. Robertson went at length into his experience overseas, reiterating his statements that prices were dependent entirely upon world conditions. Increased production in Canada would not lower prices because of continued abnormal demand.

Britain May Sell Warships

London.—Admiral Hume Long, first lord of the admiralty, replying to a question in the house of commons today, said the government contemplated selling some warships to foreign countries. Pending the outcome of negotiations, however, he added, particulars could not be divulged.

Will Take Some Definite Action On Natural Resources

U.S. and Britain Would Trade With Russia

Sir Auckland Geddes Declares Progress Is Being Made Cordially

Washington.—Negotiations between the State department and the British foreign office, concerning the proposed re-opening of trade relations with soviet Russia are proceeding and progress is being made cordially. Sir Auckland Geddes, the new British ambassador made this announcement at the conclusion of the recognition of the present government of Russia is entirely apart from these conferences, it was said.

It is the purpose of Britain and America to arrive at an agreement as to means of expanding the trade already being carried on with Russia through Scandinavian countries and by way of Finland and Latvia. While the plan to be adopted has not assumed shape it is regarded as probable that the old license system will be abandoned entirely or so liberalized as to leave but little restraint on the channels of trade.

It is fully understood in London and Washington that in furtherance of its determination to force political recognition at the hands of the western European nations and America, the soviet government will do everything possible to hamper such trade development along independent lines. The negotiators are believed to feel, however, that Lenin will scarcely be prepared to refuse the demands of his own people for the essentials of life which are held out to them in this way.

Strikers' Meeting Is Broken Up

Gathering Broke Up in Uproar After Leaders Had Been Howled Down

Chicago.—John Grunau, leader of the outlaw Chicago yardmen's association, who was released from jail at Joliet, Ill., after friends had deposited \$10,000, was expected to call a new meeting of striking switchmen to end the walkout, following the tumultuous termination of a mass meeting called by a committee of strike leaders to urge on returning to work. Declaring they had been "sold out" and hooting down attempts of strike leaders to appeal to them to end the walkout, several thousand strikers bolted a mass meeting when it was announced Grunau, who was to have presided, was still in jail.

The gathering broke in an uproar, Tammi reigned inside and outside the hall for half an hour, but there was no violence and no arrests were made. Shannon Jones, R. S. Murphy, and M. J. Kenney, who called the meeting, urged the strikers to return to work and await action of the railroad labor board on their demands for increased pay.

"I hope that you can see that it won't do any good to fight the government," Jones told the strikers. "You can fight the railroads, but not the United States, and you are fools to try."

On the rostrum was an American flag. Jones touched it constantly as he spoke. As Murphy began to speak he was greeted with cries of "Where's Grunau? We want Grunau!"

Great Britain Helps Argentine Buenos Ayres.—La Razón, commenting on the fact that the British government is loaning Argentina \$50,000,000 to pay off a loan of the same amount by New York bankers, after the latter had refused to renew it, criticizes the lack of indulgence on the part of the north American bankers. The newspaper says this means that Argentina in future financing will turn again to England, "the traditional indulgence mecca of our country."

W. N. U. 1313

Ottawa.—Indications here point to the firm belief among western members of parliament that the government intends to take some definite action along the line of natural resources before the close of the present session.

Headed by those who have been pressing for such action, a delegation of some forty-five supporters of the government, waited on the government, the cabinet members present included Sir George Foster, acting premier; Hon. Arthur Meighen, H. A. Drayton and C. C. Ballantyne. It was urged that the government should immediately consider undertaking some policy whereby the mineral development of the country will be extended and whereby all the operations already made in the house will be implemented by effective action, on the ground that this would be one of the possible methods of increasing the population, lessen the taxes, enhance the property, secure a market for agricultural products, provide employment where it is badly needed, furnish freight for the already overdeveloped railways, make Canada commercially independent of the United States and generally help to give Canada its proper place among the advancing industrial nations of the world.

It was also strongly urged that there has sprung up throughout the entire country an insistent demand for the development of the natural resources. The government is understood to have replied that it was already conscious of the arguments put forth and that some definite announcement of policy could be expected before the close of the present session. Practically every province was represented at the conference.

It is the intention of the government to transfer to Alberta, Saskatchewan and Manitoba, their natural resources as soon as terms fair and equitable to all other provinces of the Dominion can be arranged. This information was given to J. A. Campbell, of Nelson, in the house of commons. Mr. Campbell was told that it had been the policy of the government to make this transfer ever since its formation. Parliamentary action was necessary to effect this transfer.

Loss Owing to Strikes

London.—Thomas J. MacNamara, minister of labor, told the house of commons that the strikes and lock-outs reported to the ministry of labor during 1919, aggregated 1,413. The total numbers of persons directly or indirectly affected was 2,880,000. The aggregate duration of the disputes was 34,430,000 working days, figuring on the basis of individual loss of time.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California Syrup of Figs" only—look for the name California on the wrapper. It is sure to give your child a healthy, happy, and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious, fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Western Provinces Are Forging Ahead In Dairy Production

Canada's dairy product yielded approximately \$250,000,000 in 1919. Of this amount, about \$65,000,000 was received for exports. These figures easily constitute a record for the Canadian dairy industry. In 1910, the total value was estimated at \$100,000,000 and the exports amounted to \$24,000,000. Although the production of most dairy products made a fairly constant increase during the period of the war, the phenomenal record of 1919 must be attributed to large measures to improve market conditions. In common with other food products, the prices of milk, butter and cheese rose rapidly to a world shortage. Then, too, the more rapid growth of urban centres as compared with the rural population has enlarged the home market, without a corresponding increase in production. Further the shortage of labor on farms throughout the war restricted increased production materially, and the comparatively rapid expansion of the condensed and powdered milk trade affected these industry adversely. Each of these factors tended to increase prices. Thus in 1918, the average price paid for cheese by the Dairy-Product Commission was 23 cents, as compared with 1917, 20 cents, and in 1916, 18 cents. Montreal. Although similar statistics are not available for 1919, it is probable that the price exceeded 27 cents.

Butter prices also established new records, the average prices for all grades of creamery delivered at Montreal, was 53½ cents in 1919. While the production of cheese probably showed a slight decline, the past year can be credited with a record production of butter and condensed and powdered milk.

Western Canada, especially the prairie provinces, is rapidly increasing its production of milk and butter. At present Ontario and Quebec easily lead the other provinces, but with a more general realization of the need for conserving soil fertility on the prairies, dairying will progress prodigiously.

Modern, co-operative dairying is less than fifty years old. Already it has played an outstanding part in giving such countries as Denmark and New Zealand economic independence. It has been proved beyond peradventure that no other branch of farming surpasses it in maintaining and improving soil fertility. However, it would be unreasonable to expect that prices can long continue at the present high levels. On the other hand, labor conditions should steadily improve and advances will be made in labor saving devices. It seems reasonably certain that dairying is destined to be an increasingly large economic factor in the future of Canada.—A. Donnell.

De-Horning Adds to Value

A New Zest Shown in Canadian Cattle Campaign

A zest has entered into the campaign for de-horning Canadian cattle. The example of the most successful farmers is being copied by those quick to see the money-value of the idea.

Probably a quarter of a million dollars a year are lost to farmers by the non-practice of a simple de-horning process.

Live stock exchanges in Winnipeg, Toronto and Montreal especially encourage de-horning. Practically all the American native cattle, with which Canadian farmers in the West have to compete, have the advantage of being thus treated. They bring a larger return in dollars and cents.

In a circular by the Dominion government, farmers are told they will benefit briefly for the following reasons: 1. Better appearance of the cattle; 2. Quieter, less nervous nature, enabling fattening at less cost; 3. More cattle can be shipped in one car by rail, saving freight cost.

But it is when the animal is finally brought to slaughter that the value of de-horning is proved. Over 70,000 lbs of meat a year are actually reported at inspected Canadian packing plants as wasted through bruises in the flesh. Most of the bruises are caused by the animals horns while in transit from the farm to the market and the abattoir.

That total represents the parts of meat utterly thrown away. There is a farther and even greater loss. When a piece of meat is removed from quarter of beef because of a bruise, the rest of the quarter or part of it, has often to be sold at a cent and one-half or two cents a pound less—not because the meat is poor, but because that part of it has lost in appearance and sale value. Probably one in every five cattle bought on Canadian stock yards suffers from injury which could be prevented were de-horning commonly practised. The packers' buyer necessarily takes the loss into account and the farmer who sells the cattle takes the risk and a lower price. A united effort is now being made by the Dominion and Provincial Departments of Agriculture, the live stock exchanges throughout Canada and the meat packers collectively to get a better knowledge diffused among Canadian farmers of the real importance of de-horning.

B. C. May Have Iron Industry

Soon British Columbia may find herself in possession of an iron and steel industry, launched and operated by the government of the province. Hon. William Sloan, minister of mines, stated in the legislature on the second reading of the bill to extend the operative period of the Iron Ore Bounties act until 1925. The bill, he said, was in line with the government's policy to leave nothing undone to bring about establishment of an iron and steel industry.

At the signing of the armistice, the total of German bombing and scouting aeroplanes had fallen to 1,700 while, the allies had three machines on the front to every German one.

Some Facts About Wheat Growing On Western Prairies

Wheat is Canada's most important crop. It covers 36 percent of the land in crops and forms 25 percent of the value of all crops. The centres of production are in the plains provinces and the peninsula of Ontario, the former being by far the most important. Saskatchewan alone has more than one-half of the wheat acreage of the Dominion and ranks highest in the value of wheat relative to that of all crops. Manitoba and Alberta together, have more than three-fourths of the balance.

The Canadian crop is mainly spring-sown, but winter wheat is found in Ontario and Alberta, and a small acreage in Manitoba. In Ontario the heavy snows and lack of extreme temperatures favor winter wheat. High rainfall (30 to 40 inches), and humidity produce also a soft wheat. Southern Alberta, owing in part to the warming influence of Chinook winds, has a shorter and milder winter wheat than other western provinces. Owing to the dry climate the wheat is very hard. (The small amount of winter wheat grown in Manitoba is produced in the wooded parts of the north, chiefly in the Swan River Valley. Owing to the semi-humid conditions this wheat is 'rich' or at best semi-hard.) The great wheat belt of Western Canada is limited on the north by a short growing season and low summer temperature, and on the southwest by insufficient rainfall.

The small population of Canada does not require the entire supply of wheat produced. On the average over one-half of the crop is exported and the exportable supply is increasing annually. At the same time, Canada has the highest per capita consumption of wheat in the world (16 bushels including wheat used for seed).

The wheat crop of Western Canada is at present largely confined to the open plains region of the prairie provinces. This area has been found cheaper to "break" and being less liable to early fall frosts has been the first to be developed for wheat growing. It will be noticed that over 95 percent of the crop in the prairie provinces is spring wheat. In southern

Alberta rather more than ten percent of the crop is winter wheat. In northern Manitoba a very small acreage of winter wheat is grown around Swan River.

In all the prairie areas the wheat is very hard and of high quality when satisfactorily matured. This applies to both the spring and winter types. The spring wheat grown in the park belt is likely to be piebald or semi-hard, and the winter wheat at present grown in the Swan River Valley is of soft wheat.

The soil conditions that in general meet these requirements are the fallow, "breaking" and corn ground or land having produced some other food crop. Fall plowing and stubble land are, however, frequently sown to wheat. Under the rotations followed at present, the wheat acreage is chiefly composed of fallow and fall plowing. Each of these methods of preparation has some disadvantages and some advantages under different conditions of soil and climate. These may be briefly stated as follows:

The fallow is the name applied to land that has lain idle for a year, no growth of crop or weeds having been permitted, and the soil tilled in such a manner as to store and conserve the moisture. The chief advantages of the fallow are in (1) its at least partial insurance against drought (2), the development of available plant food in the soil (3) the destruction of weeds and weed seeds (4) it is (on most soils) ready to sow as soon as spring opens up and (5) it permits of a better distribution of farm work.

The disadvantages of the fallow are many: (1) it results in the loss of the use of the land for a year (2) the soil tends to drift as the result of too fine and loose a surface (3) on heavy soils the fallow unduly delays ripening (4) in wet seasons, particularly on heavy soils, the crop is made more subject to serious rust damage, or it may result in a certain degree of the fallow usually costs more than the tillage of land cropped every year and (6) following causes a serious loss of organic matter and nitrogen from the soil.—Extract from article by Prof. John Bracken.

Lightning Dangers Of Early Spring

Wire Fences to Protect Your Cattle During Storms

Though electric storms reach their highest frequency during the heat of summer they often occur in the spring and fire losses caused by lightning are by no means unknown in April and May.

Lightning rods have proved an almost absolute protection. Only in very rare instances have they been known to fail, and even in these cases, the failure was probably due to defect in installation or to deterioration.

Examine your lightning rod installations for broken insulators, for bends in the cable which allow contact with the framework, or for corrosion where it enters the earth. The latter is an important point. The electricity is carried into the ground by means of the cable, but, if it corrodes, and the ground connection is thereby broken, a fire is very liable to result. See to it that the cable is sound and is deep enough in the ground to "always be in damp earth."

When building wire fences it is advisable to use ground wires about every five rods. Lightning is attracted by wire fencing and as, during a storm, animals will congregate near to fences, many of them are killed by contact with the wire. These ground wires may be of about No. 9 gauge wire, given one turn around each strand of the fence, and carried into the earth beside the fencepost.

Farmers Must Tighten Up

The Banks Have Given the Word in Western Canada

Farmers are warned against a peril of light money by the manager of the rural service department of the Merchants Bank of Canada, J. L. Clarke, with headquarters at Regina. He stated that the bank would continue to lend for ordinary farm needs, but advised against the undertaking of any large program of extension. Mr. Clarke has just returned from a visit to the East and the United States. He said that in the markets only the old and tried stocks were finding a sale and was much impressed by the number of Americans who were preparing to come to Canada.

Experimental Farm to Grow Sunflowers

Four acres of Russian sunflowers will be planted at the Dominion Experimental Farm at Lethbridge, Alberta, this spring, and superintendent Fairfield is going to make a strenuous effort to beat the 34.6 yield record established by G. H. Hutton on the C. P. R. Demonstrative Farm at Strathmore last year. A silo is now being built on the farm, and there will be no question about carrying the sunflower experiment to its proper conclusion next winter.

Camels are fit for work at five years old, although they usually live forty years their strength begins to decline at twenty-five.

Coolies for The West

Oriental Solution of Labor Problem Still Being Considered

The proposal which it is understood has been made to the Ottawa government to bring Chinese coolies to western Canada to carry on railway construction and similar work, under an arrangement similar to that which was employed on the western front during the war, is engaging the attention of various boards of trade and others.

Chilled fish from Newfoundland is prepared in a cold storage plant which has a capacity for handling over 200,000 pounds of fish a day.

Prohibition A Success

Canada Not Injured By Liquor Laws Says Bishop

Bishop Richardson, of Fredericton, N.B., in a lengthy letter to the London Times, disputes Professor Stephen Leacock's recent assertion in the same journal that prohibition has been an appalling disaster to Canada and the United States. The bishop says that Prof. Leacock is so closely associated with a certain deluged humor, that it is not always easy to tell when he intends to be taken seriously, but to solemnly affirm that the supporters of prohibition are possessed solely by the enjoyment of persecuting their fellows would be offensive from any other writer.

"I admit frankly there are some grave weaknesses in the enforcement of the prohibition law," continues Bishop Richardson, "but I am profoundly convinced that prohibition brought with it moral and economic benefits of untold value which far more than compensate for any losses. The adoption of the prohibition law in Canada, considered as a whole, is far from being an appalling disaster, has become a magnificent success."

Cattle Breeders Plan Sale

Manitoba cattle breeders have decided to hold a sale in the Exhibition park, Brandon, on Wednesday June 2, entries to close May 5. All animals entered are to be subject to inspection by a committee appointed by the board.

To Grow Hemp in Manitoba

J. Lohr, for many years proprietor of the Jas. J. Hill farm at Northcote, Man., is reported to have purchased 7,200 acres of land at Gamble, Minn., where he will grow hemp. If it proves successful the experiment. Otherwise, flax will be the crop sown.

Trapping is Profitable

Prosperous Indians Must Pay More For Getting Interested

Trapping, to the men who know how to carry on operations, is profitable this season, according to game guardians who have returned to headquarters from inspection trips with stories of the large sums made in the north of the province. A half breed after two weeks of trapping, sold his catch of mink, marten, and fox for \$600; another made over \$2,000 in a month. Five dollars a skin is being paid the Indians for muskrats and some of them are enjoying their prosperity to such an extent that magistrates in the north, who heretofore have used two skins as a basis of fine for drunkenness, have served notice that henceforth the fine will be three skins and costs in addition.

The new republic of Czechoslovakia has an area of between 50,000 and 60,000 square miles and a population of 12,500,000.

Part of Rockaway Beach, N.Y., after the great storm which smashed four hotels and several iron piers, doing about \$2,000,000 damage.

\$10.000 For A Carload of Flax
A carload of flax sold at Winnipeg, Manitoba, a few days ago, brought its owners a total of \$10,719.18. The car contained 1,821 bushels and sold at \$5.88 a bushel.

This is believed to be the highest price ever obtained in Winnipeg for a single carload of grain.

It sometimes happens that a man is called the mainstay of the home because he does not know when to come home.

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. It is my wonder then that they become irritable and nervous, have hot flushes, pale and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I was well again. I feel like a different person. I am never without them in the house and recommend them to all who suffer with a nerve." Price 50c a box at all dealers or direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The British Character

Says British Reserve is Really Just "Shyness"

Frederic W. Wyle, American newspaper correspondent, who represented the London Daily Mail, and its associated papers in Germany, addressing the Canadian Club, said that, after 20 years of thinking it over, he had at last begun to understand the British character. Mr. Wyle said that what Americans thought coldness and reserve in the Englishman was really shyness.

Mr. Wyle, who is of Irish descent, said he sympathized with the Irish race, but any deal with the Irish must be a square deal within the British empire. It was a political necessity he said, that Ireland must remain within the British Imperial system. Great Britain could not give complete territorial independence to Ireland, Mr. Wyle declared.

That Faded Frock Will Dye Like New

"Diamond Dyes" Freshen Up Old, Discarded Garments

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathered draperies, coverings—everything!

The Direction Book with each package tells how to dye diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

Transition in Russia

Lenine, in a recent public address, complains that the peasants are showing capitalist tendencies and are becoming a bourgeoisie. A man who cultivates a plot of land and secures a crop naturally feels that he ought to own what his toil has produced. Why should he not? Communism under trial always will break to pieces against that human instinct, as it always has broken.—Buffalo Express.

Minard's Liniment Relieves Neuralgia

Canada's Population

Next Census Likely to Show A Population of Considerably Over Nine Million

Canada's next census is likely to show a population or the Dominion of over nine million people. Figures recently published and based on departmental estimates, gave the population of the Dominion as 8,835,102. While these estimates in the past have proven approximately correct, it is to be pointed out that they covered a period which ended on March 31, 1919 nearly a year ago. Since that time there has been a great influx of people to Canada.

The major portion of Canada's overseas forces around the four hundred thousand mark, has returned to Canada since that date, and immigration from Great Britain, which languished during the war years, has revived to a considerable extent. There has also been a considerable movement from the United States. With the return of such a large portion of the male population from overseas the natural increase should be much in excess of the period from 1914 to 1919. With all these factors considered, it would not be surprising if even the estimate of nine millions should be greatly exceeded.

Explained

"Waiter, why do you bring me this same potato day after day?"
"Well, sir, you never eat it!"—London World.

W. N. U. 1919

Immigration Of Children to Canada

The Migration of Children From Orphanages to the Dominion

The Manchester Guardian, commenting on the report of the Canadian Government's inspector of British immigrant children, expresses gratification that the migration of children from orphanages to the Dominion appears shortly to be resumed. Since 1916 this migration was practically suspended, the report shows.

The paper outlines the unusual opportunities offered in Canada, both in industries and agriculture, and points to the increased number of children now in institutions as a result of the war as an argument for again opening the gates of Canada to the youthful immigrant.

More than ten thousand applications for children have been received by the child-saving institutions in England since the annual migration was suspended. Many of these applications are from agricultural districts, it is said, and a large portion of the applicants are childless.

How's This?

We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood. Mucous Surfaces of the System. Sold in drug stores for forty years. Price 75c. Testimonials for J. C. Cherry & Co., Toledo, Ohio.

India and Ceylon tea are graded according to the position of the leaf on the plant, the lower the leaf the poorer the quality.

Minard's Liniment Cures Burns, etc.

Cotton has been grown in Egypt since 200 B.C., but it was not until a French engineer, suggested the introduction of the commercial varieties. In 1822 the famous American Sea Island cotton was first sown. Five years later a Brazilian variety was introduced. The two strains were mingled and from them came the famous "Ashmouni" plant, and the still finer "Mutafi," which is one of the most productive cottons in the world.

DIGESTIVE TROUBLES CAUSE DISTRESS

But They Are Nearly Always Due To Thin, Watery Blood

Do not think that because your stomach is easily upset you are the victim of some mysterious malady. One of the most common predisposing causes of indigestion is anaemia, or thin, watery blood. It has been generally recognized that healthy activity of the stomach is impossible unless the blood is rich and red. Dr. Williams' Pink Pills have been found most valuable in cases of indigestion, nervous dyspepsia, and general weakness, just because they are a blood builder and nerve tonic. The rich, red blood that not only imparts a healthy digestion, but carries color to the cheeks and lips and gives vigor to the muscles. One important point to remember is that Dr. Williams' Pink Pills contain no harmful drugs or opiates and are therefore to be preferred to preparations that merely stymie for a time. Before you begin worrying unnecessarily about your state of health, try the tonic treatment of Dr. Williams' Pink Pills. You will be surprised to see how rapidly your whole debilitated system revives, as the new, rich blood courses through your body. Here is the statement of one person among thousands who have used Dr. Williams' Pink Pills for their own great advantage. Mrs. A. Veniot, Homford, N.S., says: "For about two years I was a great sufferer from indigestion, which seemed to carry with it a complication of other troubles. Every meal I took brought with it misery, as it was followed by pain, and sometimes nausea and vomiting. At other times gas would form in the stomach to such an extent that my least food palpitated at an alarming rate. These conditions brought on extreme nervousness and irritability, and I found my general health so much affected that the least exertion would tire me, and I slept badly. I had been doctoring for several months with no result beyond slight temporary relief, when I was advised by a friend to try Dr. Williams' Pink Pills. I decided to follow this advice and got a half dozen boxes. Good results soon began to show from this treatment, and the further continued use of the pills have made me a well woman. I can cheerfully recommend Dr. Williams' Pink Pills to similar sufferers."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box in advance for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

BAR U AND NAMAKA FARM PERCHERONS

The largest stock of the Pure-bred Percherons in the World. The Bar U Percheron Farm, established in Canada. The only stock of Percherons from which British breeders have selected Percheron breeding stock to establish studs in Britain.

Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not be satisfied with the cheap cull stallions brought in by irresponsible dealers and stallion peddlers from the United States, when you can buy the best individuals of the best breeding raised right here in Alberta by men that have been in the breeding business for 25 years, and experts in the business.

We have seventy-four head of Pure-bred Percheron Stallions of our own breeding now on hand to select from. You can see their size and shape, and if you cannot choose one from the lot to suit you we will give you every assistance in our power. Write for prices or come to Calgary, Alberta, and we will meet you and show you the stock at any time.—Address:

GEORGE LANE (Desk B), CALGARY, ALBERTA

FARMERS BREED PERCHERONS

The only breed of draft horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons.

A profit to own—A pleasure to handle.

You will make no mistake in your horse breeding this year if you use a Percheron sire.

WRITE FOR INFORMATION AND LITERATURE

Let us put you in touch with the best Canadian Percheron Breeds. Mention this paper when writing.

HORSEMEN FOR 36 YEARS HAVE RECOMMENDED
Spohn's Disterper Compound

for DISTEMPER, INFLUENZA, PINKIEY, COUGH OR COLIC. Twenty-six years' use among the best horsemen in America has given the COMPOUND an enviable record as a preventive and cure. A few drops daily will keep the animal in condition and his system will resist disease. Regular doses prescribed will cure. Buy of your druggist.

SPOHN MEDICAL COMPANY, Des Moines, Ind., U.S.A.

Farm Land Boom To Fill Every Farm

Move to Encourage Farmers to Take Up Vacant Lands

The executive of the Saskatchewan Farm Settlement Association has completed plans for the biggest conference ever held in the province of Saskatchewan to take place in Saskatoon May 25 to 28 inclusive. Under the slogan of "A farmer on every vacant farm inside of five years," the officials of the association are aiming to make this year's conference a record breaker and one which will go a long way towards encouraging farmers to take up the vacant land in the province.

Wantmore Peanut Sandwiches

Take Fowler's Wantmore Blended Salts and reduce them to a powder in a meat chopper. Mix the crushed nuts with fresh cream cheese. If the paste is a little hard, soften with a little cream. Spread the paste between buttered Graham Bread. Be sure and use Fowler's Wantmore Blended Salts instead, as no other patents will make them so good.

KNITTING YARN. OUR FINEST
Red Cross quality in sixteen colours. Twenty cents per skein. Sample mailed twenty-five cents. Georgetown Woollen Mills, Georgetown, Ontario.

When We Grow Shorter
A person usually begins to lose height at the age of fifty, and at the age of ninety he has lost about one and a half inches.

In rich years a self-made man likes to boast about the hard struggle he had on a farm when he was a boy.

SPRING FEVER

Following Colds, Grip or Flu, This, Watery or Poisoned Blood (By DR. VALMONTIEN MOTT.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as druggists have sold for fifty years, in Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

TILLSONBURG, ONT.—Ever since I can remember Dr. Pierce's medicine was used in our family at home and they never failed to give good results. The "Golden Medical Discovery" was used as a tonic and blood purifier, and it is proved excellent. I have personally taken it for bronchitis trouble and the "Favorite Prescription" to build me up when I was run-down and they were both very beneficial.—MRS. OLIVERSON MONTGOMERY.

GALT COAL

Hard Coal and Briquettes
ORDERS SOLICITED.

Local & General

Our readers will notice that the advt. that has headed the centre column of the front page for the last three years has been changed, under the heading of Valquette and Dingle. Norman D. Dingle who is a brother of the Rev. J. P. Dingle, was a captain in the Canadian and Imperial Army with a very distinguished record in France during the recent war.

An exchange says that gossips have motor cars beaten to a frazzle when it comes to running people down.

The voice of duty is never still, it whispers to us morning noon and night; it reaches us from the roar of the wild tempest, the sigh of summer winds, the soft, gentle murmur of the wayside brook. That still small voice will not be hushed.

A special meeting of the Women's Institute will be held in I. O. O. F. Hall on Saturday, May 8th, to commence at 2:30 p. m. A full turn-out is requested. Important Business.

What volumes our faces say! Some speak of love and kindness, some of anger and hatred, others of pride and rebellion, and others still of selfishness. We can't help our faces talking, but we can make them say pleasant things; and all should try to have them do so.

Campers' Tea and Sale

The Campers' Tea of last Saturday, through the kindness of Mr. P. C. Cowling, was held at his building. The Campers' wish to thank him for this favor. People enjoyed the Tea and Sale thoroughly. It was a very informal affair. The boys made quite a hit with their aprons, one of them entertained the company with a demonstration of high-kicking. "Green or Black Tea, you fellows" was the salute of one waiter with arms akimbo. The receipts were forty dollars which will make a good start toward the Campers' Fund. It is expected twenty-five or thirty girls and boys will be going to Sylvan Lake this Summer from the Pathfinders' (Girls) and Trail Rangers' (Boys) organizations.

Notice to the Public

Hugh McLean wishes to announce that owing to the scarcity of feed, he will rent stalls without feed until further notice. Double stalls 25 cents, single stalls 15 cents.

Hugh McLean.
